

**YOUR TRUSTED PARTNER IN
ELECTRICAL SUPPLY**

Apex Power Electrical Supply and Solutions combines over 68 years of industry experience through the merger of Consolidated Parts (est. 1956) and All Industrial Electrical Supply (est. 2004). We provide expert support and reliable components for commercial and industrial electrical projects across North America.

Serving advanced manufacturing environments, we deliver high-performance power distribution systems, power quality solutions, and custom-engineered products tailored to high-demand operations. Whether in semiconductors, biotech, EVs, or aerospace, our solutions help maximize uptime, reduce operational costs, and maintain regulatory compliance across your facilities.

WHY APEX POWER

- ✓ **Reliable Expertise:** Years of experience serving industries that require flawless power systems.
- ✓ **Tailored Solutions:** We engineer solutions that fit your unique operational needs.
- ✓ **Commitment to Quality:** We ensure your systems are efficient, safe, and compliant with industry standards.
- ✓ **Customer-Centric Approach:** From consultation to execution, we're with you every step of the way.

**Trusted Experts in Electrical
Supply & Distribution**

INDUSTRIES WE SERVE

Data Centers

- Ensure uninterrupted power with high-density power distribution and UPS systems.
- Optimize energy consumption and eliminate downtime.

Semiconductor Manufacturing

- Precision power solutions for high-voltage equipment and automated systems.
- Mitigate power quality issues and maintain high production efficiency.

EV/Battery Manufacturing

- Scalable, reliable, and energy-efficient power systems for large-scale battery production and EV infrastructure.
- Keep your production line running smoothly with harmonic mitigation and power conditioning.

Aerospace & Defense

- Design and implement mission-critical power solutions that meet stringent compliance standards.
- Ensure redundant power systems for secure operations in research and production environments.

Biotech & Pharmaceutical Manufacturing

- Stable power solutions for temperature-sensitive labs and cleanrooms.
- Reduce downtime and protect your sensitive materials and equipment.

OUR SOLUTIONS

- ✓ **Engineering & Procurement**
 - Custom solutions tailored to your specific power needs.
- ✓ **Power Quality Solutions**
 - Rectifiers, harmonic mitigation, and UPS to protect your equipment.
- ✓ **High-Density Power Distribution Systems**
 - Scalable solutions for large production environments.
- ✓ **Cables & Cable Management**
 - High-performance cables for data and power distribution.
